A Newton Centre real estate dealer has turned prospector to help uncover an \$8,000,000 deposit of "Fuller's earth" — the purest supply of the highly prized material in the world—in the remote town of Beddington, Me.

A spokesman for the group said that "first crack" at the discovery will be given to the Atomic Energy Commission, since the quality of the deposit seems especially well suited for atomic filtration purposes. If the government declines the group's offer, then the 100,000 tons will be placed on the open market.

"Fuller's earth" is used, in addition to atomic filtration, to make dynamite and other explosives, to filter liquids ranging from fruit juice to petroleum, and to make ceramics, cosmetics, polishes, flooring, newsprint, gelatin, and insulating and soundprooffing materials.

Herter for President Committee Will Go to Court to Test

Eligibility of its Candidate, Due to His Birth in Paris

A great many prominent Republicans across the country believe that Governor Herter would be the strongest candidate their party could nominate for the Presidency in 1956, if President Eisenhower's health sidelines him, as it apparently will.

The offers of support from other that have poured in at the State House from other sections of the country have surprised even Mr. Herter's most enthusiastic admirers, and an unusual Presidential boom for a Massachusetts son is in the making.

There is only one aspect to the situation that makes it surprising. It is probably the first time any man was ever so widely mentioned as a Presidential possibility, when a doubt existed as to his eligibility under the Consti-

tution to serve as President. If Herter were not so outstanding a figure, even the slightest shred of uncertainty as to his status would almost automatically eliminate him from consideration. It ering of its kind annually held is a tremendous tribute to the tall, lanky Bay State Gov-ernor that so many people are hailing him as the logical Measures officials meet to dis-

choice of his party. -POLITICAL OVERTONES--

Dr. Henry W. Godfrey, 79-year-old general practi-tioner of Auburndale, has been named by his fellow mem-bers of the Massachusetts Medical Society as the state's General Practitioner of the Year, Dr. Conrad Wesselhoeft

of Boston, president, announced today.

The name of Dr. Godfrey will be submitted to a special committee of the American Medical Association as the Massachusetts nominee for the AMA's annual General Practitioner award. Announcement of the AMA selection will be made at the AMA's Clinical Meeting to be held in Boston, Nov. 28-Dec. 2.

IN NOMINATING Dr. Godfrey for the state honor, his fellow members of the Charles River District Medical

"In his medical practice, his community activities, and in his contributions to the activities of his district and

state societies, Dr. Godfrey epitomizes the ideal qualities of the general practitioner of today and yesterday."

Dr. Godfrey graduated from Harvard Medical School in 1906. After a two-year internship he started general practice in Auburndale in 1908 where he has continued to practice in the present time. In the coult does to practice actively to the present time. In the early days, as did other general practitioners, he did his own surgery and obstetrics as well as his medical practice. As the years went on Dr. Godfrey molded his practice to conform with new times and devoted more and more of his time to the medical side of general practice referring major obstetrical and surgical problems to his specialist colleagues at the and surgical problems to his specialist colleagues at the hospital. His office and hospital records would serve as an excellent illustration of the changes in progress in the work of an ideal general practitioner.

IN ADDITION to his private practice, Dr. Godfrey devoted eight years to work with the National Guard Unit, First Corps Cadets in Boston as captain of the medical later was readical consultant to the draft heard.

Religious **Director Is Appointed**

Bernard Shulman, for the past four years a member of the Religious School faculty of Temple Shalom of Newton, has been newly appointed director of the school. Mr. Shulman, in his new capacity as director, states as his objective "that the aim of the religious school is to help each child develop a religious approach to life, to become acquainted with the Jewish heritage, to integrate Ju-daism with American life, and to derive continuing enrichment from Jewish education."

MR. SHULMAN has an A.B.

degree from Clark University, and an Ed.M. from Boston University, and an L.I.B. from Northeastern University School of Law. He has also taken courses at Boston Teachers College, George Washington University and the Harvard and M.I.T. Extension Courses. Mr. Shulman received his Hebrew education at the Beth-El Hebrew School, and in addition received private Hebrew instruction from Rabbi Yuman. Before and since his service in the U.S. Navy (1944-1946) his teaching experience has been rich and varied. He is the director of the Woodrow Wilson Junior High School Department of Audio-Visual Ed-ucation, and has been teaching in this Dorchester School since

HE INAUGURATED his first year with an all-day Teachers Institute on Sunday, September 11, at which time he gave a detailed description of plans for the coming year, outlined the curriculum, and distributed the necessary literature to the

Registration for the religious school is in progress and rapidly being completed with the school's re-opening date to be announced. Classes will begin when the new school building, now under rapid construction at 175 Temple street, West New-ton, is ready for school use.

Political Overtones -

Presidency.

Mr. Herter has been an exceptional Governor and Congressman. Political observers in other sections of the country regard him as the outstanding Governor in the 48 States. He earned a comparable rating for his record in Congress.

He is a liberal. As a Congressman, he was especially noted for his grasp of foreign problems and as an authority in the field of international affairs. He has displayed the same qualities of leadership at the head of our State government.

He is a Republican from a basically Democratic State, and he always has been able to attract Democratic and Independ-

But there is uncertainty as to whether the place of his birth disqualifies him as a possible Presidential candidate. No one is sure whether Herter is eligible to run for the Presidency. Recognized author-ities on constitutional law disagree on the point.

Herter was born in Pais, France. His parents were both native born American citizens. His father was an artist. He was not in the diplomatic service, as some writers have erroneously reported, and Christian A. Herter was not born in an American embassy, as fable also has it. But immediately after his birth he was registered as an American citizen at the U. S. embassy.

It has been commonly believed that only a native born citizen—one born with-in the continental limits of the United States-could be President. That is what some historians have interpreted the

Constitution as meaning. That is what some teachers have taught their classes.

They may be right. No person born outside the United States has ever served as President or been nominated for the Presidency.

Many recognied authorities on constitutional law, however, assert that Herter is eligible to be President. They declare that the Constitution merely requires that a President be a "natural born citizen," and they maintain that Herter meets that test because his parents were both native born American

They ask how Herter acquired his citizenship, if he was not a natural born citizen. He was an American citizen at birth, not an alien. It was not required that he be naturalized.

Old English law, on which our common law is based, would have classified him as a natural born citizen. If the men who wrote our Constitution had meant that a President had to be a native born citizen, they would have said that. Native born and natural born do not mean the same things.

Those are points on which the scholars of law argue and differ. And the politicians, who know that Herter has the attributes to be a strong Presidential candidate, wait for the answer to a question that is now being asked across the coun-

try. Can he run?
The Herter adherents intend to get that answer in the fairly near future from the highest court in the land. They'll employ a very resourceful gimmick to obtain the opinion which was to have the

effect of law. Several possible plans of action have been considered, and a novel one has been decided upon.

A Herter for President Committee will be set up and contributions will be solicited to finance its activity. A suit then will be filed in court challenging the right of the committee to seek campaign donations for a prospective candidate for President who was born in France.

Because of the importance of the question involved and the nation-wide attention that will be centered on it, the probability is that all the judicial authorities along the way would cooperate to see

that it is answered speedily.

A ruling that Governor Herter is able to run for the Presidency could touch off

a surge of sentiment to him.

At this stage it seems likely that
Herter, if he is eligible to hold the office, could go to the Republican national convention with the solid support of the delegations from the six New England States. It is not all conceivable that he

might go into the convention with a bigger bloc of votes behind him than any other candidate.

Herter would be almost certain to draw some support from other sections of the nation because the men with whom he served in Congress hold him in very high

A drive for members got unpublican Presidential candidates, with Mr. Eisenhower out of it, is not a particularly imposing one. It is not difficult to understand why there is so much sentiment for Herter because he stands head and shoulders above the others.

Hospital Aide

If you were a member of the Newton Wellesley Hospital Aide and your husband didn't take you out to dinner after the fashion show, held at the Mead-ows, in Framingham, on Sep-tember 27th, he really should have done so. The models both professional and amateur were wonderful. The small-fry and tenage models certainly appeared to be headed for modeling as a career.
Over four hundred members

and guests enjoyed every minute of the latest fashions pre-sented by Franklin Simon of New York and Chestnut Hill.
Door prizes were won by the

TELE-VIEWING

By LEE LOUMOS
Color telecasts of the World Series were a huge success. Almost everyone who dropped into our showroom to catch a few innings was very favorably impressed. The only flaw I could find was during the middle innings when the partial shadow of the grandstand obscured color in the shade. When the shadow coverded the whole infield and the cameras were adjusted for shade, all was brilliant again.
Linda Darnell has succumbed to filmed television offers. She'il play the wife of a professor in the domestic drama, "One Life", being filmed by Twentieth-Century Fox for a dramatic series. Joseph Cotten takes over host and emece chores from Ronald Reaxan for the Sunday night plays, starting this fall.
Both NBC and CBS are after Sheldon Reynolds' 90-minute telefilm project called Melodrama. Reynolds is the producer of the popular "Foreign Intrigue" series, among others. Als the producer of the popular "Foreign Intrigue" series, a French charmer. Robert Mitchum, who is doing a full length movie of "Foreign Intrigue" for Reynolds, may also be in the first film of the new series.
These 90-minute big shows are really becoming the voxue on TV. And for the long view, you'll find the 21-inch GE TV sets in our huge television display a perfect choice. They're good looking . . , and they're good for lookins.

Deadline Nears for Social Security Claims for 1954

A considerable number of worked on jobs under social widows, young children, and security for at least a year and aged parents of working peop who died between June 1940 under 18 years of age, and to and September 1950 have failed their mothers. Where no to claim the monthly benefits widow or children survived the payable to them under a 1954 worker, payments can be made change in the social security to his aged parents if he was law, Clement A. Derby, man- providing their support. ager of the Norwood social security office told the Dedham

Transcript yesterday. Those who do not apply for their benefits before October 1, he pointed out, will not be able to receive benefits for all the months back to September 1954, the effective date of the new provision in the law.

Under this provision, it is now possible to pay monthly social security benefits to the qualified survivors of workers who died between June 1940 and September 1950 if the deceased wage earner had credit for as little as a year and a half of work under social security. The surface Division 1.5, First Naval families of many of these work-District Headquarters, Boston, it ers applied for benefits at the time of the family bread winbut were told that they could not receive payments because from Seaman to the rate of under the law, as it then stood, the worker had not earned enough social security credit to provide survivors benefits for his family.

ficiary is first eligible, his payments can be made to him retroactively for the whole period, Mr. Derby pointed out. But if a claim is delayed for more than 12 months, benefits for some months will be lost. He therefore proceed the supplying some months will be lost. He therefore urged the survivors of workers who died between June 1940 and September, 1950, to get in touch with the Social Security office, 661 Washington street, Norwood before October 1, 1955. Qualified claimants who apply before that date can be paid benefits back to September 1594.

shout their approval when you feature that man's favorite dish, lamb shanks in rich gravy. This is one of those foods that combines goodness with economy so you can serve it for thrifty, tempting fall meals.

If you haven't prepared lamb shanks for some time, remem-ber that the shanks weigh from 1 to 2 pounds and you can plan on one shank per serving. After purchasing, keep the shanks covered in the refrigerator and use them within 2 days.

Slow, moist cookery results in tender lamb shanks with a fine, rich flavor. Lamb shanks are not a hurry-up dish. You'll want to cook them about 2 hours to develop the fine fla-

vor and tenderness.
You'll probably try some of the different seasonings and sauces that enchance the flavor of lamb. Spices such as cinna-SEVEN ALDERMEN-BY-WARDS—

1 1 Stearns School, 265 Waterof the garlic makes an interest. mon and cloves lend an inof the garlic makes an interest-

ing contrast to the delicately flavored lamb. Here are two interesting recipes featuring lamb shanks. Try them for heatry, economical meals that are sure to please the man of the house and the

rest of the family, too.

Barbecued Lamb Shanks*

Yield: 4 servings 4 shanks 2 tablespoons shortening 1 cup sliced onion

1 cup catsup 1 cup water 2 teaspoons salt 2 tablespoons Worcestershire

1.2 cup vinegar 1-4 cup brown sugar 2 teaspoons dry mustard Brown lamb shanks in short ning in heavy skillet. Combine remaining ingredients and pour over lamb shanks. Cover and bake in moderate oven (350 degrees F.) or simmer on top of range 1% hours or until tender. Baste sauce over shanks 2 or 3 times during cooking period. Uncover and continue cooking for 15 minutes.

Serve hot. Braised Lamb Shanks Yield: 4 servings

4 lamb shanks (11/2 pounds) each) 2 tablespoons fat Salt and pepper 2 cups water
1 cup diced carrots
1 cup diced potatoes

1.2 cup diced celery 1 medium onion, chopped Heat fat in a skillet. Season the shanks with salt and pepper and brown them well in the hot fat. Add the water. Cover and cook slowly or bake in a moderate oven (350 degrees F.) 1½ hours. Add more water if necessary to prevent burning. Add carrots, potatoes, celery, and onion. Cook 30 minutes or until vegetables are tender.

This recipe was developed using Swift's Premium Lamb Shanks. Rocco D. Sementelli, electrician's mate third class, USN., son of Mr. and Mrs. Rocco Se mentelli of 6 Bemis street. Newland, for a refresher training course. Students attending this course are scheduled to report

in a short time to the radar picket escort vessel USS Vandivier, soon to be commissioned

creased amount of work. ANY PERSON who can come

to the Association office on weekday mornings even for an hour or two, are asked to call Miss Theresa Fickett at BI 4-4911 to let her know what time they can come. It is important that they call in advance so that the work can be set-up for them. People are needed to hand-ad-dress cards, to stamp inserts, and to do other relatively simple but time-consuming which are vital to the program of the Newton Tuberculosis and Health Association.

The work of the volunteers helps to save lives by enabling the tuberculosis association to extend its services to all resi dents of Newton. The annual sale of Christmas Seals in New ton is the sole support of the Newton Tuberculosis and Health Association which maintains year-round programs of health education, case finding, rehabili-tation, and medical research.

THE SUCCESS of our antituberculosis campaign depends on the cooperation of all the civic-minded citizens in our community. We hope that every person who can help us will call Miss Fickett at BI 4-4911.

Centre Methodist Church Service Men Begins Renovation Work Must Go Now

Centre Methodist Church got underway this week when work-men moved into the sanctuary and began dismantling the present chancel. As part of the initial work, the altar and choir loft will be restored so as to harmonize with the original architecture of the church, and a new floor covering and carpeting will be laid.

AMONG THE MOST outstanding work to be done will be the restoration of the beau- Observetiful memorial window which blown out on August 31, was blown out on August 31, 1954, when the full force of "Hurricane Carol" struck the building. The design of the window which was given by Mr. and Mrs. Alden Speare many duct the service. years ago in memory of the William Butler, will be duplicated in almost its identi-cal form. The glass, however, is expected to be much more colorful and to present a more worshipful atmosphere in the sanctuary

IN A PROGRAM launched in the spring, the members and friends of the Centre Church raised over \$30,000 in pledges and gifts to be paid over a period of three years. As the income from these pledges allow, other work of modernization throughout the church building will be done. It is anticipated that in the near future the heating and electrical systems will be modernized, along with some other smaller improvements.

Jess Traylor, general chairman of the advance program of the church, has expressed the hope that the work in the sanc-tuary will be completed in time for a rededication service dur-ing the Christmas season.

- Political Overtones -

He came very close to answering it a couple of days later in Albany when he told a cheering gathering that he knew whom he would be supporting, if he resided in New York State. The ex-President definitely did not mean Adlai Stevenson.

Political observers watching for straws in the wind were just a little mystified by the Truman remark that helped to promote the growing boom for New York's Averell Harriman.

Some of the newsmen went away wondering if the former President meant that he would back Harriman, if he lived in New York State, but that because he resides in Missouri he will be supporting

Whatever Truman did or did not mean to imply, the fact is that he gave new hope and heart to the Harriman camp, and the New York Governor decided almost overnight that he was no longer beating the drums for Stevenson.

Mr. Truman apparently helped to bring to an end one of the silliest exhibitions of sham and subterfuge that high-level poli-tics have seen in a long time in this coun-

Harriman has been stoutly insisting that he personally was for Stevenson and that he wouldn't run for the Presidency as long as the former Illinois Governor

was in the race for the nomination.

At the same time that he has been speaking for Stevenson out of one side of his mouth, Harriman also has been soliciting support for himself, and his lieutenants have been putting the political pin into Adlai by declaring that he could not carry New York State.

Now Harriman apparently has cast aside any pretense of being with Steven-son and has indicated that he is supporting only himself.

Even more important than the position of Harriman, who presumably will control the big bloc of New York State votes at the Democratic convention is

the apparent change in the attitude of Democratic leaders in the South.

Before President Eisenhower was stricken in Denver with the heart attack that probably mean he will not seek reelection to a second term, the Southern leaders indicated that they would accept Stevenson as their Presidential standardbearer in 1956. Now they are intimating that they will veto him.

At first blush it would seem that Averell Harriman might loom as the strongest potential candidate for the Democratic Presidential nomination.

He will have the powerful New York State delegation at his back, and he presumably will be able to pick up some support in surrounding States. He is a tremendously wealthy man and is in a posi-tion to conduct a lavish campaign. But a number of factors may militate

against Harriman. His double-jointed maneuvre of supporting Stevenson and running himself at the same time did not

set too well with some people.

He has placed himself out in front where he will be in an inviting target for those who want to cut him down. He is a liberal who may not be much more acceptable to the conservative

Southern wing than is Stevenson. Most important of all, his age may be against him. He is almost as old as President Eisenhower. Neither Mr. Eisenhower nor Mr. Harriman is an old man as age is measured in the ordinary business world.

President Eisenhower even before his heart attack, however, intimated that he considered himself too old to assume the stress and strain of the Presidency for

another four years.

If Ike withdraws as a candidate, as he is expected to do, the people are going to be very conscious of age and the physical demands imposed upon a President, and Harriman would be under a definite handi-

Former President Truman was asked during his Boston interview whether he felt Harriman would be too old at 64 to run for the Presidency. He said the answer to that question would have to come

from Harriman and his physicians. Truman went on to say that it would all depend on the physical condition of the individual involved. He declared that he himself was in good shape at 71 but that

he wasn't a candidate. A similar question was put to him in New York, and the queries reflect the doubt that has developed since President enhower was felled as to whether Ike's heart attack might not also have eliminsted Harriman from the Presidential

We also passed the American headquarters. It was a shambles when taken over in 1945, but looks fine now. President Truman attended the flag raising over the compound on July 6, 1945, the date of the formal occupation. The flag that was raised that day had been flying over the U. S. Capitol on December 8 and 11, 1951, when we declared war on Japan and Germany respectively. Since then it has flown over Rome on July 4, 1944, when Italy surrendered, and after Berlin it was flown over Tokyo on September 8, 1945, when our forces occupied Japan.

We also passed the American meak sure I did not get plucked away. There is a funny feeling one gets when walking around in a hot spot like that, kind of a feeling of expectancy, — the sinister poster over on the Solier poster over on the Soliers in it. They were all enisted men, and surely gave us the eye. They looked us over. However, their truck was older than those old trucks that are used to carry mail back in the States! It was really antiquated. This was a surprise to me. There has not been an American soldier driving a truck that old since the First World War! then it has flown over Rome on July 4, 1944, when Italy surrendered, and after Berlin it was flown over Tokyo on September 8, 1945, when our forces occupied Japan.

Newtonite of the Week

Lewis Paul Simons

This week the Graphic salutes Alderman William M.
Powers of 124 Grassmere Street, Newton Corner.

Mr. Powers has been the Alderman from Ward 7 since 1953. He has served that office with integrity, dedication, and in-telligence. From 1948 until February of 1954 Mr. Powers of the Social Studies Division for the Brookline Public Schools, He is also a teacher line High School, Being only 31, he is the youngest man ever to hold this doubly responsible

Bill Powers manifested interest in governmental activity early in his life. In Junior High School he competed for the presidency of his class. An amusing story is connected with that incident. Bill lost the election by one vote, the irony of it being that in a sportsmanlike gesture he vot-ed for his opponent. In High School young Powers was more successful. He was elected and successful. He was elected and served in the school Legisla-

Mr. Powers has always tak en government very seriously, believing that it is each citi-zens' duty to take an active part in civic affairs. Before he became Alderman, Bill served on many advisory committees which were concerned with better city administration. Much of his time was devoted to the Ward 7 Committee which attempts to further better city

government.

In 1953 a group of prominent citizens asked Mr. Powers to be a candidate for the open position of Alderman. These people knew Bill's background capabilities, and beliefs and were sure that he was the right

tional facilities are expanded with the growing population. To this end he has asked that a study be made of this problem. Mr. Powers also believes that our senior citizens and women should have easy access to recreational projects.

During his term as Alder-man Mr. Powers has served on many committees. He has been, or still is, a member of the Public Buildings Committee, the Franchise and Licence Committee, and Chairman of the Committee to Study the Purchase of Voting Machines. Along with these special assignments Bill and the other Aldermen deal with important matters such as taxation, the budget, building of schools, parking problems, and the un-totaled day to day occurrences which arise in a city of our

This year Mr. Powers is com-peting for the position of Aldermen-at-Large, an office for which all the people of New-ton vote. His opponent is James Fitzpatrick, a capable and able man. Both are well able to serve that position with honor. It is comforting to me, as I am sure it is to you, that we have two such outstanding

By GEORGE LAWRENCE PARKER

There is nothing so great in life as life itself. If we add up the sum of its parts we do not arrive at the whole of life. We pass through many experiences but experiences do not contain nor define the sum-total of life. We have a steady stream of thought in our minds but thought does not constitute life itself. We are creatures of love, hopes, ambitions and purposes, successes and failures; but the whole column when added up fails to convince us that the sum-total is life itself. There is always a competition also always a something else, an extra, that we are sure we have

THIS OMISSION or uncertainty is man's greatest glory and his greatest perplexity. What else we may say about it, it marks us as the supreme and unique creature among all created things. The something, the extra, the mystery that plays about our hearts like a stroke of lightning removes us entirely from the dull Kingdom of Things and sets us in the Kingdom of Personality: we are not things but persons, related in an undefinable way to an Infinite Core of Personality back of the universe. Dr. Arthur E. Morgan of Antioch College calls this Core of Personality "The Friend Behind Phenomena." Wordsworth called it "The Vision Splendid." Christ called it "Our Father who are in Heaven." However each of us may name it, it is the sum and substance of our phrase, Life, Itself.

THIS CONCEPTION of a Whole that is greater than the sum of its parts is exactly the one conception that we are losing or in danger of losing today. We are living furiously and fully and in some respects living nobly. But while we live we are vacant of life itself. We are like the small boy who was weeping sadly at a crowded street corner. "Are you lost," I asked him. "No, sir," he answered, "but my mother is." We do not seem to be lost in our countless crowds of interests. Our wars, our prosperities, our sciences, our amusements, our nventions and our bombs are implements of abounding living such as mankind has never before known. We have plumbed the seas and scaled the heavens. We have knocked at and opened most of the doors of living, but when asked to be welcomed by Life Itself the sad reply comes to us, "No one at nome." As Thomas Carlyle said a hundred years ago, "We shout our questions into the caves of destiny and receive no answer but an echo." And only a few years ago Gilbert K. Chesterton wrote:

"For men are homesick in their homes

And strangers under the sun,
And they lay themselves in a foreign land
Whenever the day is done."

There is no real or logical reason for this loss of Life Itself,
this loss of personality in our life of today. If we see the matter clearly, there is no vital reason why our gigantic institutions should crush out the flame of selfhood that burns within us. If we make robots that talk like human beings it does not necessarily follow that we must make humans who talk and think and feel like robots. The heavy fog of despair that seems now to have settled over the minds of masses of men has no justification to call itself our permanent weather map.

OUR MOST apparent mistake at present is that we are ex-pecting some quick cure, some hasty slogan, some new popular theory to lead us to a more contented sort of life.

It is true that a mental revolution is needed, but su

It is true that a mental revolution is needed, but surevolution requires nothing more nor less than patience moral courage. These are old qualities in man's nature. A are facing conditions totally novel and unexpected. But hopeful truth is that in meeting the new conditions, moral cage and all other virtues are themselves made new. It is undertolly to venture on our present traffic lanes of life with Old Dobbin as our moral wheel-horse. We must demand of ourselves a high compression engine of morals if we are to survive a high compression era of existence.

SET INTO THE TERMS of the personal life, this is life

we have two such outstanding men willing to serve us.

I personally wish good luck to both.

A member of the freshman class at Archbishop Cushing College in Brookline is Miss Martha Kelley of 387 Washington street, Newton.

A high compression era of existence.

SET INTO THE TERMS of the personal life, this is life itself, the essence of that sense of reality for which mankind is hungering. For lack of this sense of reality mankind is facing starvation. Life itself is pleading with us and beckoning to us to remake our cultural insights, to widen our educational influences until they omit no soul of man, and to make plain our religious creeds until Life Itself embraces us with the tenacity of a faith that does not fall, for the simple reason that it grows and changes to meet and to serve all conditions that man may ever meet.

Chamber of Commerce Actively Aids In Local Halloween Preparations

The Newton Chamber of Commerce, long an active and enthusiastic backer of Newton's city-wide Halloween celebrations, is again this year lending its invaluable assistance in furthering the success of the 270 separate parties for more than 15,000 school children.

THIS ORGANIZATION, deeply concerned with Newton's welfare, and recognizing the fact that today's children will become vital factors in Newton's future, has each year strongly supported our Halloween celebrations and its basic objectives -namely to instill in children's minds the elements of good citizenship. So it is that the Cham ber, in order to help defray the direction the letters have been produced, said that since the cost of mailing a letter to every family in Newton would be pro hibitive, he hoped that those not solicited would also wish to share in Newton's great Halloween for our school chil dren. Checks made payable to Warren W. Oliver, Treasurer, and mailed to the Newton Chamber of Commerce, 1171

UNUSUALLY fine progress is being made in shaping up Halloween activities for many village parties in which children of all ages, from kindergarten through Senior High participate, according to Ragna Hovgaard, Program Chairman. Progress reports from Building Chairmen are being received daily at Recrea-tion Dept. office at City Hall. The following are the latest:

Dr. Samuel G. Atkinson initiated the 1955-56 season's program with a compelling dis-cussion of Education in a Democracy—The Public's Con-cern, Dr Atkinson is New England director of the National Citizens' Committee for the Public Schools and Professor of Public Relations and Communication at Boston Univer-

Dr. Atkinson stressed the ne Cessity for an educated citizeny, stating that rule of the peo wie would be impossible without aducation—in the democratic process, at least. The audience vas informed that one of the basic goals agreed on at the Massachusetts Conference on

Education was the development of citizenship as the highest aim in any system of education—for educated citizens are responsible citizens, able to under stand and appreciate the religion and culture of others. A democracy must be concerned with the education of "each and every precious individual;" for when we talk in terms of mass production, our ideals begin to

Naturally, parents should be concerned with their children's schools, but too often this has resulted in parental interest only in the particular school which the child is attending at the present time to the exclusion of any concern with the academic activities of schools throughout the state and coun try. In these days of a mobile population, children move from various territories and both the children and the community may suffer where lower standards are introduced. Therefore, parents should study the prob-lems involved in the program of state and federal aid to educa-

In conclusion, Dr. Atkinson presented the suggestions of the Massachusetts Conference on Education at Amherst:

1. All business and profes sional groups should institute a program of public relations to educate the public to the importance of the issues.

2. School administrators should spark the work of or-ganization such as the P.-T.A., League of Women Voters and the Massachusetts Council of Public Schools.

3. School boards should hold open meetings to acquaint the public with the problems confronting them.

4. Secondary school pupils should be informed of the aims and practices of their schools in their behalf.

In answer to the question 'What is right with education?" Dr. Atkinson referred to an article of the title by Sloan Wilson in the September issue of Harpers Magazine and con-cluded:

Americans are a restless, imaginative people; we know a good thing and we naturally recognize that education is a good things and we naturally want improvements and are busy working for them.

The next program in this series, which is designed to present the issues and problems facing American education today, will be Tuesday, December 6, when the distinguished educators Lawrence K. Frank and Alden Thresher, will discuss Conflicting Goals in Education in a Democracy." Where's the smart place to put your savings?

Today millions of Americans will tell you that the smart place to save your money is an insured Savings and Loan Association. They'll give you three good reasons why this

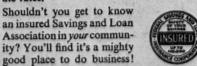

1. You're smart to put your money where it brings you excellent returns. Insured Savings and Loan Associations can invest most of their funds in sound, steady-paying home mortgages. They really make your money work hard for you.

2. You're smart to put your money where you know it's safe. In these Associations, it's protected by good management and substantial reserves. And the Federal Savings and Loan Insurance Corporation—an agency of the U.S. Government-insures your sav-

ings up to \$10,000. 3. You're smart to deal with friendly, experienced people. People who really know their communities. People who are right on the spot when you need them.

So it's hardly surprising that Americans are now putting more of their hard-earned savings account dollars into insured Savings and Loan Associations than they put anywhere else.

And here's another important point: When you're thinking of buying a home, remember that these Associations are the nation's largest single source of home mortgage loans! They make liberal loans. They see to it that you get the money quickly-and at moder-

Campaign leaders for the Greater Boston Friendly Appeal for \$556,000 jubilantly report that despite the sudden death of the general chairman, the campaign treasurer and The Salvation Army's biggest benefactor in the space of less than three months, contributions are substantially ahead of any previ-

At this dinner it was report-

ed by Mrs. Edward Godfrey Huber, Newton's General and Residential Chairman, that over \$10,000 of the \$30,500 quota needed to again put the Annual Appeal "over the top" had been received by the Newton Salvation Army office. Mrs. Huber stated that "the campaign to date was ahead of previous years and yet all the leaders and workers must continue their efforts in order to make sure that Newton again maintains its proud record of always having met its quota. She also informed the workers that many sections of Newton were as yet unsolicited and so many more workers to cover those areas would be needed.

Mayor Howard Whitmore, Jr., Honorary Chairman, told the assembled group that it was always a sincere pleasure to be associated with the Friendly Annual Appeal and complimented the many workers for their efforts and continued success on behalf of this fine organiza-

Col. Ralph T. Miller, New England Commander of the Salvation Army, gave the main address of the evening. In his remarks Col. Miller stressed the importance of having the funds available to carry on all of the Salvation Army functions. He stated that "it should be stressed that 20 per cent of all proceeds raised in Newton will remain in Newton for local needs." Also, "that these needs will be met with the usual prompt attention that the Army is noted for. The Commander reported of his many experi ences with the organization and explained some of the little known work that the "Sallies" do. He closed his talk by thanking all of the citizens of New ton for their continued sup-port of the Friendly Annual Appeal.

Brief remarks were also made by Capt. Charles Walker, who represented Chief Philip Purcell of the Newton Police Dept. and Capt. Timothy D. Herlihy who represented Chief John D. Corcoran of the Newton Fire Dept.

Dr. Robins of Newton Resigns From Beth Israel Hospital

Dr. Samuel A. Robins, of 15 Gralynn road, Newton, a pioneer in the field of radiology recently resigned as Radiologist-in-Chaef of Beth Israel Hospital, having reached retirement age. At a recent meeting of the Board of Trustees his appointment as Radiologist-in-Chief Emeritus was confirmed. with the Hospital since it was organized in 1917. His contributions to it are reflected in the growth and prestige of the spital generally, as well as in the rapid advances in the field of radiology.

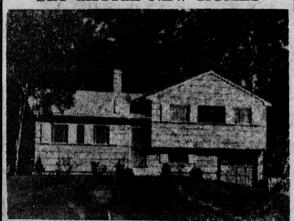

Dr. Robins has played a sig-nificant role in the development of radiology. In 1895, when Wilhelm Conrad Roentgen, a German, discovered what he called x-rays because of their ability to penetrate dense bodies, Dr. Robins was just seven years old and living in his native Lithuania. Ten years later he emigrated to the United States, and less than 20 years after Roentgen's discovery, Dr. Robins was well on his way to becoming a physician and a radiologist. Although he had specialized in obstetrics at the Tufts Medical School and opened his office as an obstetrician in 1915, by 1916 he gave up his practice in order to devote his full time to the study, development, and practice of the new specialty, roentgenology (later called radiology as an all in-clusive term for diagnosis and

DR. SAMUEL ROBINS

Dr. Robins' office was located in Roxbury, not far from the Townsend street site of Beth ates. Israel Hospital, and he soon became affiliated with the young institution. In 1916 he purchased a second-hand x-ray machine from Campbell Bro-thers in Lynn for \$750, to be paid for in monthly install-ments of \$15, and he donated it to the Hospital. The machine was set up in a barn across from the Hospital, and patients were bundled up and trans-ported by strecher to the "xray department." Dr. Robins operated the equipment with the assistance of one technician whom he himself trained. was not a very efficient

Dr. Robins spent a great deal of time, energy, and money travelling about the country studying the field of roentgeno-logy. When the Beth Israel Hospital opened its doors at its new location on Brookline avenue in 1928, Dr. Robins organized a Department of Radiology. He not only supplied the skill, but helped to provide the funds for training the staff which consisted of two techni cians, a stenographer, an ord erly, and three physicians. To day the Department of Radio-logy employs over 20 full-time people and occupies approxi-mately 7,725 square feet of space. The success and prestige of the Department today are attributed, in large measure, to Dr. Robins' research activi-ties and the stimulation which he transmitted to his associ-

In the early days, according to Dr. Robins, the findings of the droentgenologists were regarded with some skepticism. Today, however, their findings are looked upon with the au-thority and the respect which have been earned by the steady progress made in this field. Radiology is progressing more

A decision is momentarily anticipated as to whether a huge interchange will be constructed at the temporary terminus of the East-West toll road at the Newton-Weston line. The question seems to be, will the motor traffic be dumped onto Route 128 which is already accomodating 27,000 vehicles a day and 40,000 on Sunday, or will the traffic be funnelled onto Commonwealth avenue, one of Newton's most stately and high-value thoroughfares?

IT HAS BEEN announced made now is what to do to that William F. Callahan, chairman of the Massachusetts Turnpike Authority, expects to be able to announce the decision this week. Silence at GOP Dinner as to Herter's Running Again for Governor Implies He May Be in Line for Higher Office

A strong undercurernt of feeling that Governor Herter will be the Republican nominee for either President or Vice President next year was evident at the remarkable \$100-a-plate fund-raising dinner staged by the GOP in the sprawling Commonwealth Armory.

This was reflected in the hum of conversation from several hundred tables as the diners talked about 1956 and things likely to come in politics. It was reflected also in what the orators of the evening, beaming down on the paying guests from the raised head table, did NOT say in their speeches.

If President Eisenhower had not suffered the heart attack that seemingly has eliminated him as a possible candidate next year and if the Republican party was looking forward to having him at the head of its ticket next year, the oratory at the \$100 dinner would have followed two lines. 1. A draft-Ike movement would have been set in

motion, and the message would have been sent out that he was the indispensable man—the man the GOP needed to lead it into election battle in 1956. The thought that he might refuse to run would not have occurred to the speakers, and if it had occurred to them they would have brushed it quickly aside and would have made plain that they wouldn't take "No" for an answer.

One Campaign

Citizens of Newton and the other 47 towns and cities of Greater Boston are now being asked to work for and contribute to the Red Feather Campaign. Though they may be weary of the multiplicity of appeals, they would do well to pause and look at the present state of fund drives.

The Red Feather Campaign, a federated fund appeal, seeks support for 277 Greater Boston health and welfare services which otherwise would have to make 277 separate appeals to us. Red Feather conducts the one campaign that most nearly approaches the ideal of a United Fund.

United Community Services, the Red Feather fund-raising, planning and budg-eting organization has always believed in the principle of federation and united ac-tion as evidenced by the joining together of the 277 Red Feather services to effect saving of time and money, to provide more efficient and effective community fundraising, budgeting and planning and to provide better service to the people of Greater Boston.

UCS for some time has been negotiating with the Red Cross in an effort to com- nance bine the two largest campaigns in Greater Boston; these negotiations continue.

Also, by action of the Board of Directors, UCS has publicly gone on record favoring a United Fund. The Newton Com-

Givers and workers alike must stand behind Red Feather this year and help make a United Fund possible. Before we can have a successful United Fund, we must have a strong and successful Company in Company in Company in Company in Company in Company in Company includes an advertising accompany in the properties and acc munity Chest. So give now to the limit of your ability.

Political Overtones —

2. The second theme would have been a call for Governor Herter to stand for a third term a year from now. The speakers would have let him know in firm and unmistakeable fashion that he, too, was needed on the firing line in the important political combat ahead and that he would not be allowed to retire voluntarily after two terms at the head of the State government.

But those things were not said at the biggest political dinner ever held in Massachusetts. Instead, the celebrities who addressed the huge gathering devoted themselves to the Eisenhower record and the accomplishments of Ike's administration.

Their theme was peace and prosperity—the peace that President Eisenhower accomplished when he ended the war in prosperity, the prosperity that continued after the guns were stilled, prosperity without inflation, as the orators described

There was nothing particularly note-worthy about the words that came from the head table and rang out of the am-plifiers around the huge hall. They had been spoken before at other similar events across the country and they represented the line of political argument on which the Republican campaign will be pitched in 1956, whoever the candidates may be.
What was not said was much more

remarkable. This was a dinner at which Massachusetts Republicans were looking ahead to the 1956 election. They were digging into their pockets and paying \$100 apiece for a \$3 or \$4 dinner to help finance the campaign that would be waged prior to that election. They were sending out their war cry for '56.

The chairman of the evening was Governor Christian A. Herter, who had led the GOP in Massachusetts back from defeat in 1952, who had recaptured the Governorship for his party when it appeared to be firmly in Democratic hands, who had returned Republican rule to Beacon Hill, when his party's political fortunes were at their lowest

ebb in the history of the State. Yet, nobody asked him to run for Governor next year. The explanation certainly was not that anyone in the big hall thought their party could find a stronger candidate to head its ticket in '56. The reason for the silence was that the dinner guests and the speakers anticipate that Mr. Herter will get the political call to run for higher office than the Governor-

ship in the coming year.

This was an extraordinarily polite dinner. Nothing was said that could possibly embarass President Eisenhower in

any way. No predictions were offered that he either will or will not run.

Match covers carrying the message, "Stick With Ike," were on every table.

They presumably had been printed before the President was stricken with a heart ailment. The message they bore was a needless one. Everyone was waiting for Mr. Eisenhower to state what he intended

There was a very faint vestige of hope that maybe the decision he would reach would be that he will run again, but it was based more on wishful thinking than on logic and reasoning. The assembled Republicans almost all took it for granted that Ike will decide to step out at the end

of next year.

But nobody tried to beat the political drums for a favorite Presidential candidate to succeed Ike. The general attitude was that there will be time enough for that when President Eisenhower himself declares officially that he will not run again.

When that statement will come is a matter of conjecture.

That of course, was not the reason a of Elks, Newton Knights of Codraft-Herter-for-a-third - term movement lumbus Council, Newton Ameriwas not launched. The assumption in his case is that he will not be available again for the Governorship. That is not farfetched conjecture.

The fact is that the more the Republican picture develops, the more probable it seems that Herter will be on the GOP national ticket.

Vice President Richard M. Nixon appears to be the most likely nominee. A Advertising Federation of feeling exists among many well informed Republicans that President Eisenhower will place his hand on Nixon's shoulder and select him as the Presidential standard-bearer, just as he chose him to be his Vice President running mate in 1952.

No Question That Nixon Was Picked by Ike

Whatever decisions Mr. Eisenhower may leave to his advisers and his lieutenants, there seems to be no question but that it was he and he alone who handpicked Nixon at the Republican national convention in Chicago.

Should that happen again, the logical easterner to team with Nixon on the Republican ticket would be Governor Herter, and from the standpoint of cold politics it would be virtually essential that Nixon's running mate be drawn from the East. Who else is there other than less than the standpoint of two years at Bigelow in the standpoint of two years at Bigelow is the parents of twins, both now new floors of our building.

Knowland and Knight, of course, regard themselves as darkhorse candidates for the President. Nobody outside of California takes Knight very seriously, but he probably will control the delegation from the Golden Gate State, a situation that is certain to be embarrassing for Nixon but not necessarily a politically

Senator Homer E. Capehart of Indiana expressed the opinion that President Eisenhower's choice would not be binding on the Republican convention, and Congressman W. Sterling Cole of New York State voiced the conviction that Nixon has little

chance. Despite Nixon's unpopularity with some elements in his party, the fact re-mains that if President Eisenhower wants him as the candidate for President, he probably will get him.

Shrewd Republican politicians realize that their party's greatest asset in next year's election will be Mr. Eisen-

next year's election will be Mr. Eisenhower's popularity. They recognize that their big problem will be to hold the "I Like Ike" vote.

They know that the big GOP figure in the 1956 probably will be President Einth the ride in on Ike's coattails. There is no other method as likely to result in a GOP victory.

It would be fatal to the Republican if the GOP national convention danger to the fact that Ike may overshadow his party's nominee for President and that his words may command greater attention that those of the men battling to succeed him in the White House.

But the political pundits also are aware that if the Republican nominee for the Presidency is to win election in November of next year, it will be virtually necessary senhower. There are some elements of danger to the fact that Ike may over-

Tears that only YOU can wipe away...

If you heard her you'd come-running. If you saw her, you'd pick her up and hold her close. You'd dry her eyes and whisper softly. For the cry of heart-break is different from any other. You couldn't turn away from any child crying — frightened and alone — anywhere.

But all over this town, this year, there'll be children's cries you'll never hear. Children's tears you'll never see . . . Yet, if your helping hands don't come to them, they'll have no one else.

How can your hands help them? By opening the door gladly the day some neighbor calls for your Red Feather Community Chest pledge . . .

Blind children, crippled children. Children nobody want. Children from broken homes . . . children who need doctors and nurses and hospital beds. All kinds of children. They'll look at you with tears in their eyes. AND ONLY YOU CAN MAKE THEM SMILE.

Lecture on Thanksgiving, Christmas Decorations to Be Given November 3

Whether she has a green low, Mrs. Loomis Patrick thumb or not, every homemaker is interested in learning how to make her house festive for the holiday season, especially if she can do it with materials easily obtained in her own backyard or locality.

This art will be demonstrated by Mrs. Chester Cook of Lexington in her lecture "Thanks-giving and Christmas Decorations for the Home" to be given Thursday November 3 at 2 p.m. at the Second Church in Newton, West Newton.

Nationally known as a flower arranger, flower show judge and lecturer, Mrs. Cook pre-sents a fascinating program in which she shows how to manipulate evergreens, seed pods and other dried plant material into handsome swags, gar lands, wreaths and table decor-

Introducing A BIG AND VITAL **GENERAL MOTORS** "AUTOMOTIVE FIRST"!

A new Strato-Flight Hydra-Matic-coupled with Pontiac's 227-H.P. Strato-Streak V-8results in performance so new and dramatic it must be experienced to be believed!

With all that's newest in glamour—and all that's greatest in "go"-the fabulous '56 Pontiac now awaits your hands on the wheel. And when you drive it, you will get the biggest thrill in all your motoring experience . . .

... because this car is really loaded! The big and vital General Motors "First". which heads its long list of look-ahead features, unites the two most advanced high-performance developments in the industry . .

1. An all-new, big-bore Strato-Streak V-8 that puts 227 blazing horsepower at your toe-tip. 2. A completely new fluid-smooth Strato-Flight Hydra-Matic* that delivers this terrific "go" with a smooth surge of power at any speed.

You now sweep swiftly from take-off to top performance with the silent ease of a sailplane. You slow down for traffic, speed up for pass-

ing, or gun for a high hill with the changing pressure of your toe on the accelerator the only sign of effort.

You may have had it smooth before-but never like this! Here's action so different it literally must be experienced to be believed.

That's plenty-but there's much more news to make this a date that you'll long remember.

There's smart, new beauty and luxury for America's most distinctive car . . . the safety of big improved brakes . . . the security of a smooth new ride and sure-footed cornering.

There are many, many other things which mark this beauty as the glamorous pattern for tomorrow's cars. But come in and see for yourself. Take a long look at the six luxurious new Four-door and Two-door Catalina hardtops. Sample, in person, the fabulous results of the great new General Motors "First".

Plan Child's **History Class** At Homestead

Newton children in a series of classes to be held this year at the Jackson Homestead.

INSTEAD of learning it the hard way, through the perusal of textbooks, children will learn by doing — as the Jack-son family did things 100 to 200 years ago. They will make soup in the iron kettle that hangs in the kitchen fireplace; dip candles, see the spinning wheel in action, and play the children's games of long ago.

As they learn of the early settlers of America and their contacts with the Indians, the children will examine the colof Indian artifacts, which illustrates so vividly the primitive life of the original inhabitants of North America. They will hear the stories of Joseph Jackson, the colonial tailor, and the adventures of Major Timothy Jackson in the Revolutionary War. When they study the Civil War they will visit the old well and cellar where slaves were hidden while waiting to be passed on to another station in the Underground Railway.

TWO CLASSES will commence on Tuesday, October 25 from 2-3 and 3-4 p.m. and will day through December 13. Classes are open to any boy or girl between the ages of 9 and 12 years, and are free of charge, as the Jackson Home stead is owned and maintained by the City of Newton. Mrs. Sherwood E. CONCERT SOLOIST Alice Farnsworth Boffetti, who will be the featured artist at the Highland Glee Club Concert next Thursday night, opening the 175th anniversary bazaar of the First Baptist Church, Newton Centre Sauare.

It has sung for the benefit of the Community Fund, the Newton Wellesley Hospital and for many special church services and programs as well as for many charitable causes. The Club concerts held twice each year in the Newton High School are now established annual musical events which always

draw capacity audiences.

Alice Farnsworth Boffetti, the featured soloist for next week's concert, is well known and popular locally as the result of several previous highly successful performances. She has appeared as soloist with the Handel and Haydn Society of Boston, the Boston Symphony Or-chestra and the Boston Pops Orchestra. She has recently returned from a concert tour in

Italy where she made her debut in the opera "Aida."

Tickets for the concert are \$1.00 and may be obtained from the church office, 848 Beacon street, Newton Centre, or from Mrs. George F. Brewer, BI 4-4165, who is in charge of concert arrangements.

Fire Training Program Is **Shown Here**

Chief John E. Corcoran of the Newton Fire Department and Chief Richard M. Salamone of the Needham Fire Department sponsored an industrial fire raining demonstration Thursday afternoon at the new fire Station 7 on Elliot street, New ton Highlands.

The program consisted of a series of table top fire demon strations showing some of the many causes and type of fires that occur in industry. This was followed up by a fire fight ing training program provided by Mr. Dan MacKay of the An sul Company. After viewing this part of the

program, they proceeded to the Elliot street City Yard where actual fires were started and extinguished. Engine 7 and Ladder 2 took part in showing the effects of

using water and water fog on the various fires. The fires consisted of the common type rubbish fires found in every industry. The oil tank fires, running gaso-line fires and spill fires were

all demonstrated. It could be readily noticed in each instance the difference in time of extinguishment be on a trip to the Peabody Mu tween the water and the dry seum. The things that interestin time of extinguishment be powder. The dry powder seem-

On Tuesday, October 11, the two fifth grades at the Broad Meadow School visited Pioneer Village in Salem. Two students. Nancy Powers and Kenneth Ford; reported on the trip. Their accounts follow:

By Nancy Powers On Tuesday, October 11, the tdo fifth grades of the Broad Meadow School went to Pioneer Village in Salem, We saw houses like the ones the early Pioneers lived in. They are very different from the houses we live in now. There was a lady that had on clothes that the Puritans wore long ago.

There was the house was the biggest house. rest were quite small. beds were mattresses filled with straw. They had a pillory where people that were bad had to stand in for 24 hours.

We ate at a park, and after lunch we played until we had to go home. We all wished we could go again some time. We had a wonderful time.

OUR TRIP TO THE PEABODY MUSEUM

By Kenneth Ford Last Tuesday, our class went ed 'me were the swords and guns. I saw the pepper box, that The group, numbering about is a very small gun. It is very Cutlass. That was the one ! liked. I saw many kinds of guns, too Some swords were long The long swords are good for fighting. The Artillery lass is used for chopping when close up. I had a good time.

News of Day

Under the overall chairman hip of Mr. William Sullivan. Frank A. Day Junior High School P. T. A. Halloween party committee has completed plans for the annual affair at the High School gymnasium. The date is Monday night, October 31; the time, 7:30. Here at Day pupil committee directed by Mr. Charles Brown and Mrs Claire Robbins have been heiping out on ticket sales, publi-

city, and general arrangements.

A very large turn out of parents attended Day's first.

If Herter Is Considered for a Place on GOP National Slate He Would Not Be Available for a Position on State Ticket

A lively fight for the Republican nomination for Governor already is shaping up as a result of the assumption that Governor Herter will not be a candidate for reelec-tion to a third term next year. That is but one of the political chain reactions to the heart attack suffered by President Eisenhower.

The fact that Herter in all probability will be seriously considered for one of the places on the GOP national ticket virtually eliminates him from the State ticket here in Massachusetts. In some respects the situation is causing a

measure of concern for Republican leaders. This is why: The Republican State convention next year will be held more than two months earlier than the GOP national convention in San Francisco. Massachusetts Republicans will block out their State ticket by mid-June. The delegates to the GOP national convention will assemble in late August to pick their nominees for President and Vice

If Governor Herter were nominated for a place on the national ticket, he could not very well run for Gov-ernor. If he were not nominated at San Francisco, it would be too late for him to turn and head his own State ticket, much as party chieftains might desire that he do so.

Fire Prevention

Fire! The cry that can strike terror into the stoutest heart and cause panic more deadly than the burning itself need not cause fear or panic-if you don't give

fire a place to start. According to Dr. Henry W. Godfrey, director of the Newton Health Department, agencies that are concerned with the environmental aspects of health and safety emphatically agree that the preven-tion of fire in most cases is very simple mainly through safe home practices which cost nothing. In essence, Dr. Godfrey said, "A little common sense and the will to keep your home safe are the most es-

sential ingredients.

From a list of the environmental and human factors involved in the causes of fires, the following are most common:

Careless smoking habits Misuse of electricity and appliances Defective or overheated cooking

and heating equipment Improper disposal of rubbish Careless handling of kerosene and other flamable liquids

ing from fires have prompted many civic and service organizations to support lo-cal fire prevention activities during the month of October. Be careful when burning or disposing of leaves or other trash in the vicinity of the home. The Newton

> With Halloween approaching, it is not too early for parents to plan ahead with fire prevention in mind. Children's costumes should be given consideration now.

The theme, "have fun—safely" or "work—safely" in the interests of fire prevention, are applicable to young and

Move the Surplus!

It has been truly said that America is a land of plenty. The trouble today is that America is a land of too much plenty—a surplus of food which costs our taxpayers one million dollars a day simply to store.

It is one of the tragic paradoxes of our time that a people of plenty, willing and eager to help feed the hungry overseas, is faced with this situation. It would take the people of Boston 124 years to eat up the surplus foods in government storage

today.

There is, however, one way in which we can unlock part of this incredible hoard of idle food and ship it to the children of famine. And the food itself will

cost us nothing! CARE, Inc., has arranged with the government to process, ship and distribute surplus stocks to the unfortunates of other lands. But it must have funds to cover the cost of this operation if its Christmas Food Crusade is to succeed. See what tremendous bargains your CARE dollars will buy—a \$5 contribution sends 110 pounds of badly-needed protein such as cheese, butter and powdered milk, to starving youngsters!

CARE is conducting a contest which runs through Nov. 26, with fine prizes donated to winners of letter-writing competitions on why our surplus foods should feed the hungry overseas. Enter it or not —that's up to you—but take the key out of your pocket and unlock our wasting surpluses anyway. The money could not be

Lieutenant Governor Sumner G. Whittier is favored at this time to win the Republican nomination for Governor. He may, however, receive strong competition from Republican House Leader Charles Gibbons and Congressman Laurence Curtis, both of whom have gubernatorial

Gibbons is very popular with House members who undoubtedly will give him potent support. Curtis started to run for Governor in 1952 but shifted his objective to Congress after Herter entered the race for the Governorship.

An attempt undoubtedly will be made to persuade Gibbons to accept the nomination for Lieutenant Governor, but there is some doubt that he would be interested in doing so. Gibbons also has been mentioned as a possible candidate for Congress against Torbert Macdonald. His friends, however, declare that he will be a candidate for Governor if Herter does not run again.

Having stepped aside once, Congress-man Curtis will not be easily induced to do so again. He served a term as State Treasurer back in the late 1940's, and he made a strong run for Lieutenant Governor in 1950 but was handicapped by the weak-ness at the head of his party ticket and

This is a situation where the State convention will be of tremendous importance to the Republican party in Massachusetts. An endeavor unquestionably will be made to persuade the various candi-cates to abide by the convention decision and, if they lose there, not to carry their fight into next year's September primary. Whether they will all agree to do so re-

In 1950 the Bay State GOP became embroiled in a bitter primary battle for the Republican gubernatorial nomination. The late Arthur W. Coolidge won it. But by the time the GOP candidates finished fighting each other they had softened themselves and had little strength or money left for their conflict with the Description. conflict with the Democrats.

Party leaders firmly resolved to avoid any repetition of that experience. That was why they immediately launched a drive for the restoration of the convenon system of endorsing candidates and held an unofficial convention in 1952, even though they were unable to obtain the passage of a law authorizing an official

Vice Presidential candidate that year.

If he was any great asset to the Republican party as its nominee for Vice President, it was not apparent to this writer who travelled with him on his campaign train. He had a great deal of charm and an attractive family. But he campaigned on a see-no-evil, hear-no-evil, speak-no-evil plan that failed to produce any spectacular results at the polls.

The strongest argument that could be advanced against Warren, however, was that he failed to carry his home State. He was Governor of California, and he was picked to strengthen the GOP cause on the West Coast. But when the votes were counted, California was in the Democratic column. It is unlikely that the Republican delegates would forget that, if they were allowed a free choice in picking their party's standard-bearer for 1956.

There may be some basis for the belief that President Eisenhower will sit back and allow the GOP delegates to make next year. They feel there is a good likeliup their own minds as to who their party's nominee for President should be. Ike is tending the GOP national convention.

3. They think that if Ike selects his party's nominee for President, he would not give the nod to Vice President Richard M. Nixon.

Of these the convention nicked was still anyone the convention nicked was still any s basically a soldier, not a politician. The anyone the convention picked was satis-factory to him as long the man selected would carry on his policies and program.

DILLAC #1956

Inspiring the Most Inspiring Motor Cars the World Has Ever Seen!

You are looking at three of the most magnificent and inspiring creations ever to issue from the drawing boards of Cadillac's designers and engineers.

These spectacular new Cadillacs-in company with the other Cadillac models for 1956-introduce a standard of automotive excellence that will find no counterpart on the highways of the world.

Where, for instance, could you find anything to match them for beauty and elegance? Their long, low, sweeping lines . . . their jewel-like grille and rear-fender designs . . . their brilliant new color combinations . . . their sparkling highlights of chrome and gold . . . all combine to create a beauty that is truly unique.

Where could you find anything to equal them in luxury? Inside are fabrics of rare richness and pattern . . .

and features of comfort and convenience that will delight even the most experienced Cadillac owner. And where could you find anything to rival them in

performance? There's a completely redesigned Cadillac engine developing 285 and 305 horsepower . . . a new, controlled-coupling Hydra-Matic Drive . . . and advanced Cadillac Power Steering and Power Braking. This extraordinary new Cadillac beauty . . . and this

brilliant new Cadillac luxury . . . and this dynamic new Cadillac performance . . . have been interpreted in four separate series and in nine individual body styles.

We sincerely urge you to stop in for a personal inspection and demonstration at your earliest convenience.

We know you will agree that, in every way, they are the most inspiring motor cars the world has ever seen!

week the Graphic proud to honor Mr. Harold Gores of 345 Waban avenue, Wa-

Mr. Gores has been Superin tendent of Schools since 1949. He s 45, married, and has two chil-

Harold Gores's experience and education have well prepared him for the superintendency. He is a graduate of Bridgewater State Teachers College. In 1938 Mr. Gores received a Master's Degree in Education from Harvard and in 1953 was awarded Doctorate Degree in Education from that same University. For his achievements as an educator and his stature as a person, Northeastern University, in 1954, conferred upon him the honor ary degree of Doctorate of

Superintendent Gores began his career in 1931 as a Junior High School principal in Littleton, Mass. In 1934 he moved to the Lexington school system as a math teacher. 1935 found him in Newton as a math teacher and guidance counselor. From the day he came to Newton, Mr career moved rapidly. In 1939 he became Administra ive Assistant and Secretary of the Newton School Committee From there he moved to Assistant Superintendent and finally, in 1949 at the age of 39, he was appointed Superintendent of Schools.

As Superintendent Mr. Gores's duties are manyfold. He must administer the activities of 33 school buildings and 1,000 emes. He works closely with the School Committee, suggest-

ing and carrying out policy.

The proficiency of Newton schools and her students are not accidental. Through Mr. Gores's efforts and with the help and forwardness of our

the climate of leadership that Mr. Gores has established. He has always encouraged the free interchange of ideas both from the teachers and principals up the ladder as well as from the School Committee and himself down the scale.

Out of this was born, for example, our wonderful and unique Outdoor Education Program. As those of you who have children in school know, the sixth graders go to New Hampshire for a few days each year to study and observe nature at ner source. This program was first suggested by an elemen-tary school teacher and was wholeheartedly supported by Superintendent Gores.

During Harold Gores's admin-stration, 9 elementary school ouildings and 5 school additions have been completed. This is the argest building program of any ity in New England.

One of the most progressive innovations for school curricu-lums is the Kenyon Plan whereby an intelligent and mature igh school senior is enabled to take college courses and re-ceive advance standing for them. Mr. Gores helped put this plan into action by introducing it in Newton High School, When Time magazine was doing a story bout this plan, they called Mr. Gores for a comment. Curiously enough, his comment was used as the title of the story.—The Saturday Evening Post has also given him credit for being a top chool administrator.

The citizens of Newton should feel proud and privileged to have Harold Gores as Superin-tendent of Schools. He has done a fine job in the past, and while he continues as Captain of our Educational Ship, it will always sail a smooth course.

Watertown Pupils To Use Newton Y Swimming Pool

The Newton YMCA Youth Division has announced that its swimming pool facilities will be available to the Watertown Recreation Department for weekly instructional swims starting November 2. Elementary school pupils from Water town will receive swimming in-struction for a period of eight weeks ending December 21. 1955. Lawrence Fordier, director of the Watertown Recrea-tion Department will supervise the program.

The above activity is in keep ing with the Newton Young Men's Christian Association's policy of offering its facilities to agency and community groups as witnessed by over 5,000 attendances at outside group meetings in the "Y" during 1954.

Travelers Bazaar to Feature Squash End World Fair

An international feature of both this country and abroad Squash End World Fair, to be held Thursday and Friday, paper and personalized stationton, will be a Traveler's Bazaar Mother's Club Day Camp Com-mittee. Here the shopper looking for unusual gifts from foreign women of India.

For nearly a year the chairmen of this table, Mrs. A. Philip Guiles of West Newton and Mrs. Harvey F. Kazmier of Newton Center, have been collecting picturesque items for the fair. Many of the articles were brought home from trips abroad by Newton travelers such as the colorful appliqued felt belts from Switzerland and beautiful silk squares (large enough to be made into blouses) from Mexico. The col-lection is both colorful and educational in that it shows the imagination and fine handiwork of women in other lands.
